DAILY DEMOCRAT-FORUM

(Successor to the Maryville Republican)

VOLUME 1. MARYVILLE, MISSOURI, THURSDAY, JUNE 1, 1911. NO. 305.

SENATE AT WORK

PASSED BILL TO COMPEL CITIZENS TO CLEAN SNOW OFF SIDE WALKS.

STATEHOOD WILL PASS

Senate Republicans Badly Demoralized—Some Light on Trust Formations.

By VAN CLEVE.

Washington, D. C., May 28.—The United States senate has at last gotten down to business. It has passed a bill to compel the citizens of Washington to remove the snow from the sidewalks.

* * *

Senator James A. Reed is cramping the bit and Senator Stone is threatening to fill the senate chamber with sulphur fumes that will make some of the stand-patters think they have come to their final judgment, but Mr. Gallinger and his bunch are not easy to swerve from their course of studied inactivity. A great game is going on to defeat the reciprocity bill and, incidentally, Mr. Taft. Some progressive senators are so much against the president that they want to fight everything that emanates from him; others are so thoroughly against anything that promises discomfort to the trusts that they are willing to defeat Mr. Taft in order to defeat reciprocity. Neither crowd wants to lose the presidency to the Republican party, but both want to capture it for themselves, and no element in the senate is now strong enough to force a measure through as a party or factional measure. So the matter is quite complicated. The moves that are made on the chess board betray but little of the scheming and skillful maneuvering that goes on in the cloak rooms and in little caucuses outside the senate chamber.

* * *

Senator LaFollette has closed a speech of several installments on his resolution to reopen the Lorimer case and place the matter in the hands of a new committee. That the enquiry will be reopened and that the "blond boss," as he is familiarly known in Chicago, will walk the plank are conceded. The people refused to accept the findings of the last senate as final. This, together with the facts developed by the Illinois senate and a petition from that body to reopen the matter will eventually seal his fate if he doesn't resign.

Then, too, several of those senators who were instrumental in saving his scalp last fall are not here now. They have accepted invitations from their people to remain at home this summer. So the fight now is mainly on what committee shall handle the matter. The high protectionists claim the tariff is too sacred a thing to be touched by anybody but its friends. So the supporters of Mr. Lorimer think they are the men to revise his case. They want to let him down without breaking any bones, and, incidentally, spread a few feathers to light on themselves. Their former fiasco was, of course, sufficient ground for a change of venue now, but, having once groped in darkness they would have us believe they now see the light.

* * *

It is now believed the senate will agree to the admission of both New Mexico and Arizona to statehood. Senator Bailey has announced that while he will not vote for it he will not make a determined fight against it. It was the refusal of his Democratic colleagues to follow him on this question during the last session that brought about his sudden and sensational resignation, which he later recalled.

The house passed the bill to admit these territories last week by a large majority, the Democrats standing solidly together. Mr. Mann made an heroic effort to corral his sheep, but when the test came not one, but about thirty-five slipped away from the shelter of the fold and voted for the bill.

This fact calls to mind that the most thoroughly demoralized thing in the political world today is the Republican organization. The old machine that has amazed the world and long been the source of nation-wide wonder, is all out of gear. Instead of mowing down, binding up and stacking away everything before it, as a reaper does his grain, and as it used to do in the good old days of Cannon control, it now slips over, jumps around and slides about like a road grader in a piece of new ground. It is just about as effective as a circus net would be in catching minnows.

* * *

The house investigating committees are rolling up their sleeves and some exposures are docketed that will make the country sit up and take notice. John W. Gates was before the committee investigating the steel trust Friday and told the story of the organization of that tremendous institution with as little concern as a boy would tell of a fishing trip. J. Pierpont Morgan caught a New York bank during the panic of 1907 in trouble and with a lot of securities of the Tennessee Coal and Iron company on hand. He was also troubled because Andrew Carnegie had threatened to build railroads to connect his steel mills with the great lakes. He also proposed to establish tube works in competition with those in which Morgan was interested. Carnegie was a foeman worthy of his steel, and Morgan, being largely interested in railroads, was bothered. Carnegie, a year or two before, had given Henry Frick and an associate an option on his mills for $160,000,000, and had charged them a million for the option. Frick and his partner failed to finance the deal and "Uncle Andy" scooped in the million of option money and started after bigger game.

When the bank's condition was discovered, Morgan remembered the above incident and a big idea suggested itself. He sent for Gates and set out to find somebody who could get close to Carnegie. Carnegie's head man, Schwab, was suggested. They were summoned to New York and went into an all-night conference. At 6 o'clock the next morning the organization of the greatest trust on earth, next to the Standard Oil, was worked out. Gates and his Tennessee company was taken over, subject to President Roosevelt's consent. Schwab was to be president of the big concern, the bank was to be relieved, Carnegie's interests were to be taken over in their entirety, and the proposed railroads and tube mills were to be only a memory, and the public would eventually pay the expenses of the transaction.

When the matter was put up to Carnegie the canny old Scotchman sized up the situation and said: "All right, gentlemen, I will sell out, but that 160,000,000-dollar deal was just a little pleasantry of the past. Now, if you gentlemen want this property of mine, you can have it for $320,000,000, otherwise nothing doing." This was a difference that might have dazed some financiers, but not so the great Morgan. He went right ahead, the steel trust was formed, Carnegie got his $320,000,000 and everybody was pleased, except those who couldn't help themselves. Gates was the first witness. There will be more of them, and interesting stories are in prospect. The trusts are feeling rather foxy since the supreme court rendered its decision in the Standard Oil matter, and some of their men are glad of an opportunity to boast of their achievements.

CLOSE GAME WON

BY THE COMETS FROM FALLS CITY WEDNESDAY.

WISE PITCHED STAR BALL

And Held the Champions Down to Six Scattered Hits—Auburn Again Wins.

A goodly number of fans had a hunch yesterday, braved the sneers of their friends, went to Riffe's and saw the Comets put one over on Falls City, 5 to 4. It was by far the best game of the series, with the Comets holding the big end of the hits and, for once, the little end of the errors.

Little Johnny Wise took the mound for the Comets and stayed there nine innings, allowing only six scattered hits to be taken from him. Justus and Fraser held down the front and back ends of the firing line respectively for Falls City. Justus was poked seven times for safe ones, and succeeded in chopping nine, although he didn't seem to have much.

An error and a two-base hit put one over for Falls City in the first. With a pass and two errors filling the bases in the last half of the first, Black singled, evening up the score, but the Comets failed to improve the chance and put any more across. The second inning brought out some fast work, the feature being Walsh's fielding and peg to first. Neither side could score.

Wise, for the second time, fanned the first man up in the third. Tappan bunted and Dietz threw wild to second. McNeil lagged on third, but Tappan was thrown out from center to second. An error by Cowley let the second score in. A single to right by Drumm put the third score across. Forrester fanned and Seno flied to Black making the third out. Sackett came to bat in the Comets' half of the third and started a business-like proposition with a single to left. Dietz went to first on an error and Bulger tripled to right. Two more runs, Wintz walked and Black singled to center, scoring Walsh and Wintz. Black was caught on second. McBride flied out to center, Griffin tripled to right and Cowley fanned.

Falls City chalked up another one in the fifth and things began to look bad. Tappan was passed. Trainer was cut off at first and Drumm flied out, making two down. Forrester reached first and Steno singled, scoring Tappan. McCabe hit to left, but luckily the ball hit Forrester and the side was retired. No more scores were made by either side and some fast playing was done at times. A pretty double from Wintz to McBride spoiled an excellent chance for Falls City to score. In the seventh inning Wise pitched only five balls. Trainor and Drumm hit long flies to center field which looked good, but Black did some fast foot work and nailed them both. Forrester hit the third ball thrown to him toward Wintz. The Dutchman ate it up and caught Forrester at first.

Notes.

With six straight games, the Comets now have a chance to fight Shenandoah for the cellar.

Black hit .400 yesterday and did some tall fielding. It got him in good with the fans, if there was any doubt about him before.

You can't throw them past Dietz. His peg arm is sore and causes a few slips, but it won't last long.

The sorcheads missed it yesterday.

With Dietz and Wintz hitting .400, .666, .750 and 1.000 right along "Ping" Bodie will have to look out if he wants to keep his "rep."

DECORATION DAY CELEBRATED AT HOPKINS

Decoration day at Hopkins was a success, as the day was full of special events. The old soldiers, accompanied by the Hopkins band and the flower girls, went to the cemetery at 10 a. m. to decorate the graves of the old soldiers who have passed away. A large crowd was in attendance.

In the afternoon exercises were held in the M. E. church, and the church was filled to its capacity. The address was given by Rev. Osburn of the Baptist church.

A ball game was also played in the afternoon between Hopkins and Bedford. It was a close game, and at the end of the ninth inning the score was a tie, 3 to 3. In the last half of the tenth Hopkins scored. Many fans from Bedford attended the game.

In the evening a home talent show was given at the opera house, which was managed by Mayor Donlin, for the benefit of the cemetery. There was an immense crowd in spite of the rain storm. The play given was "Down in Dixie," and it was the best home talent play ever given in Hopkins. The Normal male quartet from Maryville had a part in the show and made a decided hit, especially the singing of Lona Perrin, the first tenor. The play is to be repeated by request on Saturday night. The price of tickets reduced from 50 cents to 25 and 35 cents.

Tuesday was certainly a gala day for Hopkins.

WAS A BIG SUCCESS

MOTHERS' CIRCLE ENTERTAINMENT AT HIGH SCHOOL.

RECEIPTS WERE $53

Program Given by 100 School Children in Interes of Emergency Room in School Building.

The entertainment given at the high school auditorium Wednesday night under the auspices of the Mothers' Circle was a splendid success. The receipts for the evening amounted to $53.30. The sale of tickets brought $48.30, of which the Boy Scouts sold $14.70 Wednesday. A friend of the Mothers' Circle presented it with $5 last night, which brought the receipts of the evening to $53.30.

The program was given by over 100 of the school children from the primary grades to the high school, and each number wa sindeed fine. The teachers, aided by Superintendent Hawkins, gave their time to make the entertainment a success, several laying aside their personal plans a few days in order to see that the entertainment should move off successfully.

The children acquitted themselves splendidly, and it is impossible to go through the program and tell of each one who is worthy of mention, because that would take in all. But the numbers that seemed to take with the audience best were the May pole drill, the piano solos by Miss Eleanor Smith, Miss Virginia Lawson and Ernest Moore; the solo, "Mother o' Mine," by Miss Mildred Robinson; the plays, "Going to Chicago," "The Train to Mauro" and "The Lost Child." "A Memorial Day Dream" and the flag drill were beautifully given and were especially appropriate.

The Mothers' Circle is very happy today and greatly encouraged over the success of its first effort. The Circle is working in the interest of all mothers and children, and their efforts cannot fail of response from all who believe in mothers and the great future of children.

Diamonds are as staple as wheat

More so, in fact. If you took $25 or $50 or $100 out of the bank and bought a diamond with it—it isn't like spending the money on another article, because a diamond will never depreciate in value.

And all the time you wear it, it is earning you recognition, and promoting a feeling of stability among your friends, which is a pretty good thing to have done these commercial days.

Let us see if you and we can't make a deal in Diamonds.

Just now we can give either a lady or a gentleman some unusual chances to secure this desirable gem at advantageous prices at

OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

LITTLE GIRL DIED OF PNEUMONIA

Arrietta Frances White, the 3-year-old daughter of Mr. and Mrs. Lewis White, living six miles southwest of Maryville, died very suddenly about midnight Wednesday of pleuro-pneumonia. The little girl had not been well for nearly three months, but her condition was not regarded serious. She frequently complained of being tired and often stopped playing to go to her father or mother, saying: "Baby tired; take her." Wednesday evening she did not seem as well as usual and Dr. Nash, who was the child's physician, was summoned. He gave the child thorough examination and found some evidence of pleuro-pneumonia, and although he considered the child quite sick he did not think her condition dangerous, and left medicine for her. Some time after he left Mr. White started upstairs with the three little girls to put them to bed, and all went to the bedroom, where the mother and little sick sister was to bid them good-night, when it was noticed that she was going to sleep. Lifting her quietly in his arms he held her down for the little sisters to give her their good-night kiss, and as he gave his own kiss to the sleeping child he noticed her quiver and pale. The parents telephoned to Mrs. Nash to have an automobile ready the moment Dr. Nash arrived and return to them at once, for they feared the child was dying. Dr. Nash arrived home in a few moments after the message came, but the little girl had died in her father's arms.

The funeral services will be held Saturday afternoon at 2:30 o'clock in the First Baptist church in this city, conducted by Rev. Lee Harrel, the pastor. Burial in Miriam cemetery.

Mr. and Mrs. White's family consisted of four little girls, Arrietta being the third. She was 3 years and 1 month old to a day. The older little girls are Dorothy Ellen, and Mary Virginia, and the youngest Rachel Norrine.

Mr. and Mrs. White have the sympathy of all in their affliction, which is especially sad at this time, as they were in the midst of preparations to welcome the bride of Mrs. White's only brother, Herschel Cast of Swifton, Ark., who was married Tuesday evening, May 30, at Newport, Ark., and they will arrive in Maryville Friday on a visit to his parents, Mr. and Mrs. Joseph Cast.

The Moses Stock company will play tonight the four-act drama entitled "In the Trail of the Serpent." With this company is Mock Sad Ali, the world's greatest magician. Other new and pleasing specialties will be introduced. Prices tonight are 10 and 20 cents. Curtain at 8:30.

President Hill of Great Northern Makes Huge Bond Issue.

LARGE PROJECTS IN PROSPECT

May Take Over the Chicago, Burlington and Quincy Road—Officials Say It Will Be Separated From Northern Pacific—Merger Considered Legal.

St. Paul, June 1.—A motive that is strongly suggested here of a railroad operation on the scale of the Northern Securities company was announced by J. J. Hill, chairman of the Great Northern Railroad company, when he announced the execution of a $600,000,000 first and refunding mortgage to secure bonds for the Great Northern and Chicago, Burlington and Quincy railroads.

The issue of $600,000,000 in bonds by the Great Northern, as announced by Chairman Hill, means that a number of large projects are in prospect, according to a prominent official, who, by reason of his intimate knowledge of affairs, declined to allow his name to be used.

First it means the taking up of $330,000,000 of gold bonds of the Great Northern, including $222,400,000 in bonds of the Burlington road, for which the Great Northern is responsible. According to this official, it also means that the Great Northern will take over the Chicago, Burlington and Quincy railroad, separating it from the Northern Pacific.

In view of the recent opinions of the United States supreme court in defining "reasonable restraint," it is thought a merger of the Great Northern and the Burlington railroads will be deemed a legal merger.

The fact that Mr. Hill has been planning on acquiring absolute control of the Burlington, releasing the Northern Pacific of its responsibility and control of that line, has been a matter of common gossip for some time. It has been reported that he was simply waiting until the time would be propitious for the consummation of such a deal. That time is now quickly approaching. It may be two or three years before it can be carried through successfully, but that it is under way is regarded as certain by those who have been watching the trend of events.

CLARK KEEPS OUT OF IT

Accepts Advice of Friends Not to Become Involved in Wool Quarrel.

Washington, June 1.—Speaker Champ Clark declined positively to comment on the Bryan appeal to the Democrats not to "masquerade" under the guise of a tariff for revenue only in voting for the Underwood revision of the wool schedule, nor would he discuss the reply to Mr. Bryan made by the majority leader. The speaker's close friends, recognizing that his present position is difficult, have advised him against becoming embroiled in the party feud.

Chairman Underwood, smarting under the Bryan attack, is exerting every effort now to insure a two-thirds vote of the Democratic members for the committee at today's caucus.

The bill closely resembles the Wilson bill, except as to raw wool, the duty on which is cut from the present rate of 11 cents a pound to about 5 cents a pound.

Beaumont Wins Aero Race.

Rome, June 1.—Andre Beaumont, the French aviator, arrived here at 3:55 p. m. He was the first contestant in the Paris-Rome-Turin flight to reach Rome, the end of the second stage of the race. His flight from Pisa, about 160 miles, made him the winner of a $20,000 prize.

DIAZ SAILS FOR SPAIN

Exiled President Says Farewell to Mexico.

GIVES WARNING TO COUNTRY.

Says That New Government Must Yet Resort to His Military Methods—"I Shall Die in Mexico," Are His Parting Words.

Vera Cruz, Mex., June 1.—General Porfirio Diaz said farewell to Mexico. With his wife and other members of the Diaz family he sailed from this port on the steamer Ypiranga for Havre, France. The seamer goes by way of Havana and General Diaz' ultimate destination is Spain.

His ship was only a little way out when the searchlight of the fortress guarding the port was turned on it. With glasses in hand, among a small

party in the stern, Diaz was standing somewhat apart, close to the rail. He was plainly discernible, taking his farewell look at his native land.

His last words, spoken to those he had left on shore, were:

"I shall die in Mexico."

This was uttered in a tone of prophecy and with a look of inspired conviction.

To his country General Diaz delivered a warning.

Speaking to the little group of soldiers who had served as a guard on his trip from the capital, the old man, who governed Mexico for more than thirty years by military strength, said the present government must yet resort to his methods if peace is to be reestablished.
